The tedious tasks of procurement, maintenance, and transportation of goods and materials are made incredibly easy with our integrated solutions of single-contact convenience and one-stop flexibility.

From local and domestic distribution needs to international handling and management, our logistics services include:

- Pick and Pack
- Inventory Management
- Order Fulfilment
- Ship and Receive
- Custom Brokerage
- Warehousing and distribution
- Trucking and Hauling
- Air and sea freight services
- Advanced Online Tracking Tools/ Apps

Kelly Bryce Logistics Company adheres to a philosophy of an unwavering and resolute commitment to our business partners and customers by intentionally providing them a client-centered experience and real-value solutions to all their logistical requirements locally and internationally.

## Empowering Business

To empower your business at the local, regional and on a global scale.

To give your business the edge to compete not only locally but also internationally

## One-Stop Logistics Solution

We ensure that our clients have the logistical services that they require, including land, road and air traffic networks that are efficient and reliable.

- Client-centered – our focus is our client, and their issues are our main concern
- Transparency – We provide you the full information you need and maintain an open communication for effective decision making, brainstorming and troubleshooting issues, and recognizing sustainable solutions
- Solutions provider – our goal is to help you decide the right solutions for your business, to increase productivity and savings
- Loyalty – we believe in the satisfying rewards of long-term relationships and remain passionately committed to providing better services and innovative solutions

## Mission

Kelly Bryce Logistics Company aims to continuously meet and provide solutions to all the logistical needs and demands of its clients and business partners, whether locally or globally, in a timely and cost-effective manner; minimizing, if not eliminating, freight forwarding and management risks while maximizing freight savings for its clients.

## Vision

It is our vision to be the best strategic partner of customers in need of a trusted and proven logistics service provider company in the Philippines; earning the trust and respect of our shippers, sustaining loyalty of our fully satisfied and successful business partners and customers, and continually providing better and improved freight services in land, air, and rail.

## WHY CHOOSE US

When you partner with Kelly Bryce Logistics, you are entrusting your business and all your logistical requirements, whether land, air, or rail to a proven and dedicated logistics service provider in the Philippines.

We make sure that all our people is guided by the company's unwavering core values and principle of openness, integrity, accountability, and world-class service in all aspects of our company.

### **Our roster of satisfied clients can be assured of:**

- Customized freight solutions to empower you and your business and providing you with what you need and want.
- Proprietary supply chain visibility system to provide your business the complete connectivity and accessibility that you require;
- Integrated services management to give you the convenience, security and speed that your business needs - from warehousing, order fulfilment, distribution, to customer support, and many more.
- Dedicated and supportive industry experts who continually provide you with the business tools and services to help add value to your expanding business

The management of the inflow and outflow of materials, products and goods between the points of origin and to the point of consumption or destination is a very complex task and with plenty of possible risks to be hurdled.

With valuable resources such as time, energy and information being managed in warehousing and distribution, the need for an efficient and reliable logistics provider becomes an essential motivation for any reputable business.

## Giving Your Business the Global Competitive Edge

**Aside from our air, sea and land freight services, our company also makes it a point to offer a comprehensive solution for all the logistical needs of our client. Over time, we have expanded our services to include the following:**

- trucking and hauling
- storage and warehousing
- custom brokerage
- facilities management
- other types of distribution (medical and pharmaceutical)

With Kelly Bryce Logistics, we can guarantee you that the people handling and managing your precious cargo load is in good hands.

**We make sure to cover all the basics down to the littlest details of the following areas of logistics:**

- Handling and order management
- Warehouse management
- Distribution management
- Supply-chain management

## Customs Brokerage

Want to avoid the hassle of negotiating with a buyer or a seller?

Rather than go through the nuances of it, just put your mind at ease and let your broker agent work for you to facilitate what needs to be done. Your brokerage company will work to reach a mutually beneficial outcome for you and another party, resolve points of differences if any arise, and come to an end to satisfy your business interests.

### **Below are of the key points that need to be done by your custom broker:**

- Order fulfilment and shipment coordination
- Import-export handling with customs processing and clearance
- Cargo insurance
- Real time tracking and tracing
- Tariff, duties classification services

So whatever your need to distribute goods and products anywhere, we will match you with the right freight carrier to transport your cargo safely from your doorstep to its destination. We are a one-stop solution to your transportation and freight needs by utilizing a vast network of professionals, innovative tools, and various modes of transport – by land, sea and air.

## Importation of Different Goods

Are you looking for ways to simplify and smoothen the regulation process of importing and exporting your goods through various ports of customs?

In order for your goods, products, and materials to move smoothly and seamlessly across points of entries and borders, tariff and regulations on trade and import must not only be understood correctly but complied with as well in full terms.

At Kelly Bryce Logistics, rest assured that we fully understand this process and can address properly all possible import and export problems and challenges that your shipment may face.

This way you can concentrate on enhancing and expanding your core business operations without worrying about shipment delays or cargo loss.

Our online tools will not only help you understand and comply with trade regulations but also help you estimate your transportation costs, duties, taxes and other fees.

- Check import compliance and validate tariff codes
- Create or upload customs and trade documents for customs clearance
- Access brokerage information and contact customs brokerage
- Monitor your shipment's progress through a real time tracking tool
- Wide variety of import shipping options with customs clearance

## Trucking and Hauling

At a loss as to what are right type of tracking and hauling services that you need for your cargo load?

For the most part, trucking and hauling services are needed in conjunction with air or sea freight services.

This essential service is also heavily involved in the transport of huge quantities of raw materials, in-process and finished goods – usually from manufacturing and processing plants to various points of consumption and / or destination.

**From moving vans, flatbeds, dump trucks to container trucks, Kelly Bryce Logistics offers a number of array of logistical services to better meet your trucking and hauling requirements:**

- Professional truck drivers with the knowledge and skills set to operate and handle heavily loaded trucks and its mechanical systems
- Full Truck Load (FTL) or Less than Truck Load (LTL)
- Exhibition or trade show services
- Any day or time pick-up and delivery – same day, next day, precise day or hour
- Express and time-critical services
- GPS satellite navigation units
- Air-ride for truckload shipments
- Temperature-controlled cargo
- Chemical, sensitive or hazardous Materials handling
- Waste, junk and scrap collection for disposal or transport to recycling centers

Ensure your goods get delivered to their worldwide destination quickly, safely, and in the most cost-effective way. Our air freight solutions cover a wide range of services starting from collection, transport to delivery – guaranteed!

From the Philippines to around the globe, we operate and deliver to most major cities in Asia, Europe, North and South America and Africa.

## Online Tracking and Control

Get assurance and control of your air freight shipment costs with our real-time app to determine your rates and customize your shipment. Have the peace of mind by tracking your cargo movements in real time.

## Wide Air Freight Coverage

We offer a wide gamut of delivery options and coverage to suit your logistical needs: from the 24-hour guaranteed delivery date to less urgent transit times. We make sure that your freight, whether loose or palletized, gets the service reliability that you deserve.

## Wide Air Freight Access

Our dedicated global network of air freight services and trusted partners based around the world are specifically designed to provide you a wide array of value-added access and services. This means guaranteed delivery of your shipment in the fastest way possible.

## Key Points of Kelly Bryce Logistics

- Competitive and comparable rates
- Guaranteed Door to door services
- Reliable Tracking and Tracing services
- Fast customs clearance

With our company's well-entrenched presence in many major and busiest ports around the world, along with our trusted partnership with reputable third party shippers and agents, Kelly Bryce is secured and confident in its ability to deliver a wide range of sea freight services to suit the needs of each and every one of our valuable clients.

From cargo container management, proper documentation and handling of goods, to shipment monitoring, our company can ensure the shipment of your cargo from your doorstep to any point of destination around the world.

## Full Array of Global Freight Solutions

Our extensive global network of sea freight services and partners is specifically constructed to handle almost any size shipment, whether a full container load or less, an oversized and customized cargo, and other special items and equipment.

- **Freight Forwarding**

From booking, arranging pickup and delivery times, managing shipping documentation to any point of destination worldwide, you can rely on us to do our job in a cost-efficient way and, more importantly, according to your specified needs.

- **FCL (Full Container Load)**

We offer constant flux of ship departures as well as competitive fees for a full container load (FCL) shipments from many major ports across the globe.

- **LCL (Less-Than-Container Load)**

Our Less-Than-Container-Load (LCL) is perfect for your small cargo shipment in between major ports around the world.

- **Customized / Equipment Cargo**

We provide customized cargo shipment for your equipment and other uncategorized cargo loads just about anywhere you want or need to ship at a very manageable cost.

## Key Points of Kelly Bryce Logistics

- Less container load (LCL) and Full container load (FCL) services
- Sea cargo insurance
- Door to door import and export shipping
- Customs management
